

Cold Places

In this topic we will be learning and enjoying the stories 'Lost and Found' and Winter. We will also be learning Christmas songs and rehearsing for our Christmas nativity.

We will be in role as the characters from 'Lost and Found' so please do not tell your child about this book in advance!

In Literacy we will continue to learn our letter sounds and blends. We will be enjoying stories and practising speaking in full sentences. We will be reading and writing the sounds we learn.

In Maths we will be counting, ordering and recognising the numbers 0 – 20. We will be using numbers in different contexts such as outside in the playground, playing board games, on the computers and using objects in the classroom.

We will be learning how to make a boat that floats, understanding freezing and melting and exploring different materials. We will also be learning about animals that live in cold places and how they adapt to their surroundings.

How you can help at home:

Continue to read with your child every day. Use the real Bug Club books and the ebooks as much as you can. Keep talking to your child about what is going on in the stories you read together. Ask them their opinions and offer your own.

Count anything and everything – lego, road signs, cars, toys. Ask your child to count by putting the items in a line to ensure they haven't counted them twice!
