19<sup>th</sup> January 2018

Dear Parents

### Year 6 Sex Education

As part of their PSHE topic this term, the children in Year 6 will be studying the topic of human reproduction in the context of emotional development and relationships. An important part of this study is for the children to find out about their own physical development. The week beginning 29<sup>th</sup> January 2018 we shall be watching a highly regarded BBC DVD and following this with discussion. This study will form the major part of the children's sex education at primary school.

The programme will cover the following areas of content;

- Physical changes at puberty for both boys and girls;
- Coping with physical changes;
- Understanding feelings and moods during puberty
- How babies are made
- How babies are born

Some parents may wish to come in to school to see the DVD before it is shown to the children. If you do, we have arranged a viewing for parents on Monday 29<sup>th</sup> January at 9am. The meeting will last 30 minutes. Please return the form if you intend to take part and sign in first at the school office. If you have any other questions about the topic please not hesitate to contact me.

Yours sincerely

Clare Griffiths
