

# What happens at midnight?

During our second topic we will be learning about animals including humans. We will find out about different types of animal and whether they are omnivores, carnivores or herbivores.

We will be focussing on nocturnal animals and will learn about owls and other British animals.

We will learn about the human body and the children will be able to find out about their body

and recognise their five senses.

In Art we will learn to use new materials and explore wax resist and model making.

As we are working as a whole school on developing our vocabulary and on reading for pleasure we will be enjoying our first chapter book together.

In maths we will be moving on to working with larger numbers and adding and subtracting to 10. We will begin to work place value and understanding the value of numbers to 20.

## **Ways to help at home:**

Please continue to read with your child as often as you can. Use your letters and sounds card and practise the sounds given every week in the homework.

Use numbers every day to count, add, subtract and order. Encourage your child to add quantities during shopping trips and at home.

If you would like any advice about how to encourage your child to read for pleasure – which books to buy or how to engage a reluctant reader, please speak to your child's teacher.
